> STEAMER SOLD .- Yesterday morning the steamer Anne Linnington was sold at public sale; she now lies at the lower wharf. She was purchased by Cept. the head waters of the San Joaquin; would afford me the utmost pleasure to James Hamilton, for the sum of \$8,300. The Anne Linnington is a new boat, and admirably adapted to run in the low water season.—Lou. Cour. 28th.

The Dignity of the Profession.—
In London etiquette forbids a physician from applying the lancet; he must send for a surgeon, who is considered an humble individual. A gentleman invited a physician to dine with him in the country. country; as they were riding out together, the gentleman was attacked with an apoplectic fit; it was necessary to bleed him, but the physician would not do it; it was beneath his professional dignity. He rode on to his dinner, and sent a surgeon to bleed his friend, who found him dead. This is like the country; as they were riding out tofound him dead. This is like the "fashionable" who regretted he had not had an introduction to a drowning man, that he might have saved his life.

QUICK WIT .- One of the readlest replies we ever heard was made by an "What are you fencing in that lot for,

E. W. M. KING, Esq.
Memphis, Tenn., March, 1830,
The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The medical faculty constitutes an anomaly in this or any other country—all of them are able lecturers and the best of tascher. est of teachers.
Those who will contemplate our geographi-

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deay that any other city has more.

A common error exists in the minds of many students relative to the place of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose Faculty are practically acquainted with those diseases.

That the public may be satisfied of the permanency of this school, we feel it our suty to state, that the Trustees and Faculty form a unit in action, which augurs well for its future success; and that the peculiar internal organi-

zation which connects them, cannot be inter-rupted. E. W. M. KING, President of the Memphis Institute, Feb. 28, 1850,-1y
